

Report at a glance

Spirometry

QI priority

Ensure spirometry results are available for all patients admitted to hospital with an acute exacerbation of COPD.

Non-invasive ventilation (NIV)

Only

24.8%

of patients who received NIV did so within 120 minutes of arrival at hospital.

QI priority

Ensure all patients requiring NIV receive it within 120 minutes of arrival at hospital.

Respiratory review

87.5%

of patients admitted were reviewed by a member of the respiratory team.

66.7%

of admitted patients were reviewed within 24 hours of admission.

Smoking cessation

53.1%

of current smokers were referred for behavioural change intervention and/or prescribed a stop smoking drug.

QI priority

Ensure that all current smokers are identified and, if they accept, referred for behavioural change intervention and/or prescribed a stop smoking drug.

Discharge bundles

75.5%

of patients admitted received a discharge bundle.
