

## 2. Case-note audit: key findings

### Congratulations

to all EIP teams across England for maintaining service delivery at a high level in spite of COVID-19 restrictions and the demand to move to digital interventions

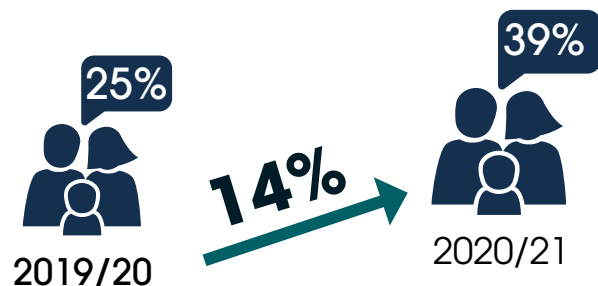

Commendation for commissioners

of services reported an **increase** in the number of **staff posts**

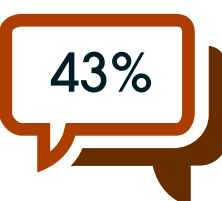

**Increases in 6 out of 7 physical health interventions**

Impressive in the context of COVID-19

**Increase in children and young people receiving Family Interventions**

A **decrease** in the number of services with **CBT for ARMS provision**

under 18s

18-35s

36 and over

Percentages of services **without** CBT for ARMS provision by age range:

Acronyms: EIP - Early intervention in psychosis; COVID-19 - Coronavirus disease 2019; CBT - Cognitive behavioural therapy; ARMS - At risk mental state
