(* denotes NCAPOP Audits)

(# denotes reports likely to include information on children and / or maternity services)

Clinical Outcomes Review Programme

The **Clinical Outcome Review Programme** (CORP) is designed to help assess the quality of healthcare, and stimulate improvement in safety and effectiveness by enabling learning from adverse events and other relevant data. It aims to complement and contribute to the work of other agencies such as NICE, the Royal Colleges and academic research studies which support changes to improve NHS healthcare.

With the ability to measure against recognised standards and compare services on a local, regional or national basis, clinical audit and outcome reviews are very powerful tools for assessing the quality of services being provided. When used as part of the wider quality improvement cycle, they provide a strong mechanism for driving service change and improving patient outcomes, but full participation and a determination to learn from the findings is essential.

Service provider contracts for these programmes have been awarded to the following suppliers (links are provided to website homepages):

Clinical Outcomes Review Programme	Programme website homepage	Main Contact
Medical and Surgical	http://www.ncepod.org.uk/ - Dysphagia in Parkinson's Disease	Dr Marisa Mason mmason@ncepod.org.uk
