

## NHS England Quality Accounts List 2023-24

The table below lists the National Clinical Audits, Clinical Outcome Review Programmes and other national quality improvement programmes which NHS England advises Trusts to prioritise for participation and inclusion in their Quality Accounts for 2023-24.

The legislation governing Quality Accounts is found in The Health Act (2009) and The National Health Service (Quality Accounts) Regulations (2010). These state that local healthcare providers must publish a 'Quality Account' written document each year, which sets out information in relation to the quality of their services. The legislation does not impose any requirement on a healthcare service provider to participate in specific national clinical audits or enquiries, simply to report on whether or not they have participated in them, in the annual Quality Account written report. The legislation does not refer directly to the NHS England Quality Accounts List (The List) at any point.

However, the NHS Standard Contract ('SC26 Clinical Networks, National Audit Programmes and Approved Research Studies' specifically 26.1.2 and sub bullets 26.1.2.1 / 26.1.2.2 / 26.1.2.3') sets out the requirement to participate in the Quality Account 'The List'. See web link here:

In addition, the NHS Standard Contract gives commissioners the power to require remedial action of healthcare service providers who fail to participate in an NCAPOP project. This provides scope for withholding funding in the event of sustained non-compliance. Project providers inform HQIP if a trust has failed to participate and the Care Quality Commission (CQC) may investigate this during a trust inspection and levy a fine.
