

CLINICAL AUDIT AWARENESS WEEK 2025

CELEBRATING OUR CLINICAL AUDIT HEROES!

INFLUENCING CHANGE

12:30-13:45

CAAW25 L&L programme

Date	Mon 2 June	Tues 3 June	Weds 4 June	Thurs 5 June	Fri 6 June
Topic	Patient Safety	Patient & Public Involvement	Healthcare Inequalities	Influencing Change	Efficiencies
Key speakers	Hester (NHSE) 	Kim (H) 	Dann (H) 	Sam Riley (NHSE)	Dr Theresa Barnes (RCP)

All online, 12:30-13:45

Today's agenda

1.
Introduction

2.
Key speaker

3.
Clinical Audit Hero
winner announced

4.
Winner
presentation

5.
Q&A

6.
Evaluation

7.
Close and
celebrate
#CAAW25!

CAAW – Influencing Change

Engagement with staff and frequent data results to compound improvements

Use audit to inform the qi projects

Knowledge of HQIP and Making Data Count and the resources and training they have available.

Good to reflect on the importance of qualitative data in complementing quantitative data.

Measuring data continuously is key and engaging teams is crucial to sustained improvement

Great examples of how clinical audit can influence change and drive improvement. Well put together presentations and well presented.

More frequent audit of data sets. identifying small sustainable wins.

Engagement and data counts

Great clinical audits showing clear improvements.

Inspiration to get better at pulling together good work and share it

That clinical audit should not be in a silo, but integrated with the work of other departments such as quality improvement to work together to achieve best outcomes for patients.

Share examples of plotting the dots in clinical audit with Sam Riley's team

If HCPs find the patient pathway / journey difficult to navigate - how do patients manage?
Importance of identifying "unintended consequences" (balancing measures") in measurement / QI work

Setting achievable interim targets, supporting team motivation through use of data and keeping momentum through regular meetings are useful practices.

The range of tools available through the Futures portal is very useful as a resource.

CAAW – Influencing Change

✓ **Data and intelligence at the heart of system reform**

✓ Meaningful change must be grounded in accurate, timely, and transparent information

**Bold &
Ambitious**

- ✓ **Data-Driven Reform:** Uses audit data to guide change
- ✓ **Workforce Empowerment:** Involves staff in quality improvement
- ✓ **Integrated Care:** Focuses on cross-boundary coordination
- ✓ **Patient-Centredness:** Incorporates patient experience

**Value &
Impact**

HQIP

Healthcare Quality Improvement Partnership (HQIP)

- **Clare Fountain**

**Associate Director of Healthcare Quality Improvement
HQIP**

Clinical Audit Awareness Week 2025 featuring the Clinical Audit Heroes awards

www.hqip.org.uk/clinical-audit-awareness-week #CAAW25

In collaboration with:

HQIP

Healthcare Quality
Improvement Partnership

Influencing change entries 2025

Examples

Evidence-informed care

- STOMP: reduced inappropriate prescribing, informed national guidance
- Bolton: palliative audit saved 1,000+ bed days, improved care planning
- CWPT: staff-led audit cut tranquilisation by 50%, restraint by 43%

From national to local

- UCLH: NACEL + local audit drove trust-wide end-of-life care change
- NPDA: dashboards targeting variation and inequality

Patient-centred care

- MSIUK: 100% local anaesthetic offer, halved IUD pain reports
- HHFT: improved dignity, skin integrity, and reduced waste

Driving innovation

- ESNEFT: digital Long Covid rehab, £8.55 ROI per £1
- Hydrocephalus: sensors reduced admissions and exposure

Healthcare Quality
Improvement Partnership

Making a difference through Clinical Audit

Structured	Clear, evidence-based standards
Reducing variation	Supports both service design and clinical reflective practice
Collaborative	Led by clinical teams
Cyclical	Drives action and re-measurement
Adaptable	Works across all settings and scales
Innovative	Enables digital and value-based models of care
Impactful	Delivers measurable, real-world results

Key speaker

Adding life to years

How clinical audit can drive healthier, longer lives

Sam Riley, Director of Making Data Count

5 June 2025

“The NHS is in serious trouble”

Lord Ara Darzi

1. Re-engage staff and empower patients

2. Shift care closer to home

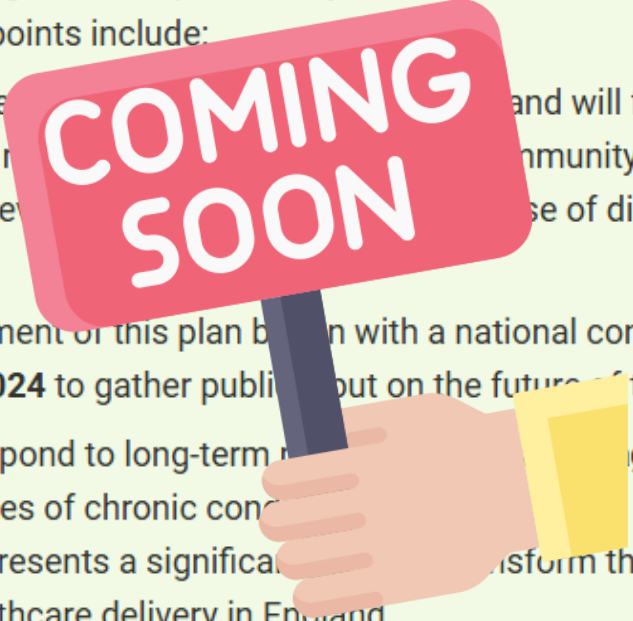

3. Simplify and innovate care delivery

4. Enhance productivity

NHS 10 year plan

The **NHS 10-Year Plan** is a strategic initiative aimed at addressing the challenges facing the NHS, particularly those exacerbated by the COVID-19 pandemic. Key points include:

- The plan is set to be published in **October 2024** and will focus on **three major shifts**: moving care into community settings, enhancing prevention, and increasing the use of digital technology.  
- The development of this plan began with a national conversation initiated in **October 2024** to gather public input on the future of the NHS. 
- It aims to respond to long-term challenges, including an **aging population** and rising rates of chronic conditions. This plan represents a significant transformation of the NHS and improve healthcare delivery in England.

   4 Sources

National priorities

National priorities and success measures for 2025/26

Priority	Success measure
Reduce the time people wait for elective care	Improve the percentage of patients waiting no longer than 18 weeks for treatment to 65% nationally by March 2026, with every trust expected to deliver a minimum 5% point improvement ²
	Improve the percentage of patients waiting no longer than 18 weeks for a first appointment to 72% nationally by March 2026, with every trust expected to deliver a minimum 5% point improvement ²
	Reduce the proportion of people waiting over 52 weeks for treatment to less than 1% of the total waiting list by March 2026
	Improve performance against the headline 62-day cancer standard to 75% by March 2026
	Improve performance against the 28-day cancer Faster Diagnosis Standard to 80% by March 2026
Improve A&E waiting times and ambulance response times	Improve A&E waiting times, with a minimum of 78% of patients admitted, discharged and transferred from ED within 4 hours in March 2026 and a higher proportion of patients admitted, discharged and transferred from ED within 12 hours across 2025/26 compared to 2024/25
	Improve Category 2 ambulance response times to an average of 30 minutes across 2025/26
Improve access to general practice and urgent dental care	Improve patient experience of access to general practice as measured by the ONS Health Insights Survey
	Increase the number of urgent dental appointments in line with the national ambition to provide 700,000 more
Improve mental health and learning disability care	Reduce average length of stay in adult acute mental health beds
	Increase the number of CYP accessing services to achieve the national ambition for 345,000 additional CYP aged 0–25 compared to 2019
	Reduce reliance on mental health inpatient care for people with a learning disability and autistic people, delivering a minimum 10% reduction
Live within the budget allocated, reducing waste and improving productivity	Deliver a balanced net system financial position for 2025/26
	Reduce agency expenditure as far as possible, with a minimum 30% reduction on current spending across all systems
	Close the activity/ WTE gap against pre-Covid levels (adjusted for case mix)
Maintain our collective focus on the overall quality and safety of our services	Improve safety in maternity and neonatal services, delivering the key actions of the of the 'Three year delivery plan'
Address inequalities and shift towards prevention	Reduce inequalities in line with the Core20PLUS5 approach for adults and children and young people
	Increase the % of patients with hypertension treated according to NICE guidance, and the % of patients with GP recorded CVD, who have their cholesterol levels managed to NICE guidance

NHS England » Draft NHS Performance Assessment Framework

Managing long term conditions

Metric	Organisations to which the metric relates
Percentage of hypertension patients treated to target	Integrated care boards
Percentage of diabetes patients to receive all eight care processes	Integrated care boards

Shift towards prevention

Albert Einstein

A story.....

Introducing Amit

**Hello –
nice to
meet you**

Amit has diabetes

43 health related appointments last year

Overweight and lethargic

Depressed and socially isolated

3 hospital admissions in the last year

There's a problem at St Elsewhere NHS Trust

CEO – Hugh G. Overhead

KPI	Latest month	Measure	Target	Variation Assurance	Mean	Lower process limit	Upper process limit
Trust NEL LoS	May 25	6.7	-		6.3	5.5	7.1
Surgery Division NEL LoS	May 25	6.0	-		6.0	5.5	6.5
Medicine Division NEL LoS	May 25	8.0	-		7.5	6.5	8.5
Womens & Children Division NEL LoS	May 25	5.3	-		5.4	4.8	6.0

Staff are concerned on Ward 7

Ward Manager – Kirsty

We seem busier than usual, staff are stressed... I'm not sure what has happened..... I don't know what to do!

I'd like to help

Clinical Audit lead – Jenny

What's the problem on ward 7??

Clinical Audit lead – Jenny

I can definitely help Jenny!!

I think I can help, but the data in the on base is what I deal with a lot so I get on 't help

Analyst – Nina

Nina's helpful analysis

Significant increase in length of stay for diabetic patients

No change in length of stay for non-diabetic patients

Top delays : social care + poor glycaemic control

Increase in poor glycaemic control delays

Diabetic medication incidents

Referrals to diabetes team taking longer

An urgent meeting is called

Significant increase in referrals to diabetes service

Diabetic nurse – Paul

It's good to talk

Diabetic nurse – Paul

Community nurse - Gwen

Clinical Audit lead – Jenny

**I've got an idea
about how
clinical audit
could help**

Jenny's big idea

The outcome

Agreed system priority

Executive sign up (whole system)

Robust diabetes pathway audit plan

Ownership from all stakeholders

- Agreed audit questions
- Monthly audit, baseline data
- Clear responsibilities
- Forums to review the data
- Improvement support prioritised

Diabetic pathway audit plan

**We need to
take a baseline
and then
monitor
everything
using SPC!**

Significant increase in new diagnoses

Let's understand what has changed in our population

It's becoming harder to manage patients

Will patients be sicker when they get to hospital?

Significant decline in foot checks

These are vulnerable patients – what's the impact of missing these checks longer term?

Referrals to St Elsewhere are not changing

Does this reflect the needs of our patients? Is there unmet need?

Out audit plan has worked!!!

Strong network of clinical auditors

Cause for celebration

Patients living longer, happier lives in better health

**Dr Emily Collis, Transforming End of Life
Care Team**

Consultant Palliative Care and Transforming End
of Life Care Team

University College London Hospitals

Project: Transforming End of Life Care
Quality Improvement Project

Winner presentation

Clinical Awards Heroes: Influencing Change

Transforming End of Life Care Team (TEOLC)

Project Background and Quality Priorities

In response to Governors' report identifying gaps in end-of-life care (EOLC) at UCLH, TEOLC set annual priorities focusing on :

- Education
- Bereavement support
- Clinical service development for patients at the end of life

Data-Driven Improvement

The National Audit of Care at the End of Life (NACEL) data helped inform the business case for a pilot of our EOLC clinical service.

The rollout of EPIC further enabled easier identification of patients nearing the end of life and allowed for the development of templates for care planning on electronic patient records.

Education

Educational courses
to help equip staff with the skills to discuss complex end-of-life care decisions

“Talking DNACPR”
(relaunched 2025 "TEP Talks") for CNS' & Drs

“Compassionate Conversations” for nurses and HCAs

Trained

2024: 227 delegates

2025: 55 so far

Overall 2024/25 TEOLC team provided > 1100 episodes of EOLC education, including 10 full day study days (Compassionate Conversations, Link Nurse Champions and EOLC study days).

• Leaflets:

Care in the last Days of Life, Advance Care Planning, What to do after a Death, and TEP/DNACPR decision making.

• Trust policies:

End of Life Care, Compassionate Care after Death and DNACPR

Bereavement support

Bereavement calls for support/signposting following adult deaths in the trust

Bereavement cards sent to bereaved relatives (of all adult patients) sign posting to on-going bereavement support services, links to the national or UCLH end of life care survey & TEOLC telephone number for further support/queries

Bereavement service development in line with Supportive, Palliative and EOLC joint strategy to ensure an equitable service for all bereaved relatives

New 'Information following a Bereavement' leaflet co-written with Medical Examiners Team and Compassionate Care After Death policy updated 2023

Clinical Service Development for EOLC

2021

NACEL 2021 data highlighted low staffing in pall care (0.85 vs 2.27 nationally per 100 beds). SLA contract negotiations commenced for staffing uplift and business case submitted for charitable funding to pilot clinical EOLC service

2024

By 2024, 89.5% of deaths at UCLH were seen by Palliative Care/EOLC teams, with 67% of ICU patients also receiving reviews.

The pilot's successful evaluation led to successful business case for substantive funding in 2023.

2023

Development of Clinical EOLC Service

- Implemented SWAN model of care
- 7-day/week holistic reviews for all patients in their last days of life
- 'ICU Excellent care in last days of life' care plan, poster presented at the Palliative Care Congress 2023.
- 'Daily review' Epic template for patients on Excellent Care in Last days of Life care plan enabling daily assessment of individual needs, including hydration needs, in keeping with national/NACEL standards.
- Piloted a Virtual Reality (VR) intervention for staff resilience and wellbeing, poster presented at the Palliative Care Congress 2024 .

Pilot Results and Feedback

In the first 7 months of the pilot:

869 visits were made, with 85% of these addressing emotional and physical needs of patients and families.

Collaboration with the community: 41 patients supported to have a rapid discharge home for EOLC .

Overwhelmingly positive feedback from staff and relatives

Sustainability and Innovation

Continuously
reassess patient and
staff needs

Moved from an
education-only model
to a clinical team of
specialist nurses,
ensuring ongoing
support.

Innovative approaches:

Virtual Reality (VR) for end-of-life care introduced to enhance patient and family experiences (eg virtual safari, trip to Japan & New York, cruise experiences)

Positive Impact on Patient Care and Outcomes

EPIC templates developed and piloted with subsequent QI work on daily review template: increased the percentage of patients' nutrition and hydration reviews from 50% to 80%.

Equality, Diversity and Inclusion (EDI) is key focus with the rollout of cultural competence across departments, and improving the documentation of religion and ethnicities

Bereaved carer survey: High ratings for the quality of EOLC, particularly in addressing cultural, spiritual, and religious needs.

UCLH is one of 13/204 trusts awarded a commendation from NACEL: 'The team at UCLH NHS Trust have shown an excellent commitment to QI and have utilised NACEL data effectively to drive integration and improvement for their patients'

10 years of TEOLC in 2024

Q&A for our Winner

Raise your hand and when selected, we will enable your mic and camera so you can take yourself off mute and ask your question

question via Q&A

Evaluation and close

How was this event?

#CAAW25 – Influencing Change

Take away challenges

How will this Clinical Audit add **value**? How will it support influencing sustainable change to improve **patient outcomes**?

What metrics will be utilised to evidence **impact** on improving **patient outcome**?

What do we already have that we can utilise differently?

- Are we maximising the impact of participation in current Clinical Audits across pathways & systems?
- How can we make better use of real time integrated data to drive improvements across pathways & systems?

Join tomorrow's lunch and learn!
