## Nomination form

### Reveal your #AuditHero

Sally Allen, clinical governance manager, Shrewsbury and Telford Hospital NHS Trust

### Why are they an audit hero?

Sally leads the Clinical Audit Team and it is a testament to her leadership that the team is held in such high regard throughout the Trust. She supports and develops her staff and supports the trust in developing the clinical audit agenda. As clinical audit forms a large proportion of the Corporate Governance Team, Sally's contribution can be seen in the excellent results for this team in the latest National Staff Survey.

Volunteers have been recruited to assist in carrying out patient surveys. As a natural progression from this successful project, Sally developed a programme to involve patients in clinical audit. Not in a tokenistic way, but by developing in a patient panel to ensure a patient perspective on the Trust's clinical audit projects. The panel was set up in 2013, and there are currently six panel members drawn from various different backgrounds from across the county. The panel meets regularly through out the year to discuss a wide range of topics - for example, projects for inclusion in the clinical audit programme, progress of audits currently undertaking and updates on actions arising from audits. Prior to undertaking their role, panel members receive the necessary information and straight-forward training provided by the clinical audit team.

### Name of nominator

Clare Jowett
